

Arts, Culture and Lifestyle Workshops in the heart of Italy

At the Tuscan Renaissance Center you will bring your program to life in an enchanted environment. The Chianti hills. A twelfth-century monastery. Sumptuous food. The harmony of the vineyards. There is a reason why Tuscany is an enduring destination.

The Concept

We have created a place to take you away from your daily life and allow you to focus on an activity you love in the company of like-minded people. Infuse that with traditional Tuscan values that reach back to the essentials of living: beauty, taste, community, nature and you have fertile ground for creativity, for new ideas, for discovery. Set all of this in a stunning landscape and the result is pure inspiration.

The Place

The facility of San Fedele was a monastery dating back to the twelfth-century. It is reborn, thanks to the labor of love that its present owners, Nicolò and Renata, initiated in 2001. "Bringing life back to San Fedele and awakening its dormant soul allowed us to re-discover ourselves." Today there are 17 guest rooms with all modern conveniences. The original church, the refectory, the stone cantinas and the terrace of the monks are still intact, but transformed into gathering spaces and classrooms. San Fedele's historic significance has been maintained and every visitor becomes a part of it.

The People

Linda and Michael have been facilitating arts and culture workshops in Italy since 1995. "Tuscany enriches us. We started doing this because we wanted to share our passion for Italy with others." When Nicolò and Renata came together with Michael and Linda the restored monastery became the Tuscan Renaissance Center. When we open the gates of this historic residence to you, we also open our hearts. Together the four of us will facilitate every detail and necessity to support you every step of the way to ensure an ideal and enriching experience.

This is the Tuscan Renaissance Center with a great story to tell...your own.
